how to use the puffy paint tubes

- Push the tip gently onto the fabric and create your work of art by squeezing the paint onto the surface
- Let the paint dry for a minimum of 6 hours
- Once dry, ask an adult to set a hairdryer to maximum and heat the paint until it puffs up
- Alternatively, ask an adult to place the item on a soft surface and iron the decorated area on the reverse side (10-60 seconds) until the paint puffs up

how to use the paint pots

- dab the brush gently on a colour then paint your own work of art
- let the paint dry for a minimum of 3 hours

important

- Before washing, turn the item inside out or place inside a pillowcase. Minimum machine wash. Handwash only max. temp 30°C
- Adult supervision is recommended
- Puffy Paint will work on almost any surface including glass, wood, fabric and paper
- Always test any material for heat resistance before applying heat to it
- Avoid contact with finished and unfinished wood, wallpaper, painted walls, vinyl, carpet and other material that cannot be washed or laundered
- Wash from skin with soap and water
- Paint will not wash off vinyl, wallpaper, carpets, soft toys
