---	---

how to play

1) Press the On/ Off button on Simon's tummy

2) Each player should select a colour and press the corresponding light button on the base unit (Simon needs to register the number of players in the game).

3) Press Simon's nose to confirm you are ready to begin playing.

4) Select game level

You can choose whether to play an easy game, or one that is more challenging. After all the players have pressed their coloured light and pressed Simon's nose, wait for the music to play and the lights to flash. Now, press one of the lights to set the level of play. Select red button for the easiest level (level one), all the way up to purple for the hardest level (level 6). Be sure this is done before the music stops!

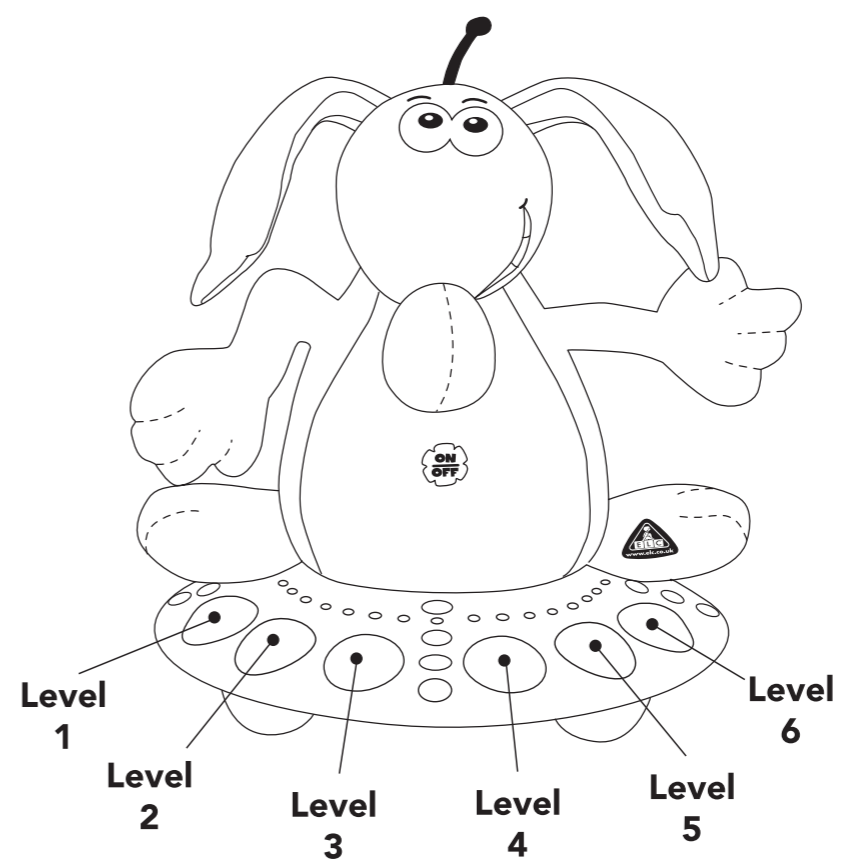

If no selection is made, the game will automatically set itself at level 6.

5) On each player's turn, when Simon says, "Simon says..." and gives you instructions, you need to try to follow them as quickly and accurately as you can. However, if Simon does not begin his instructions with the phrase "Simon says," then do not follow his instructions - just press his nose instead. If you follow his command in error you will be out of the game!

The winner is the last player to remain in the game.
