twist mechanism for changing modes

T-bar assembly

step 1

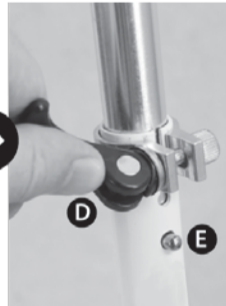

With the clamp (A) fully opened and unscrewed, locate the T-BAR (B) and insert into the opening at the top of the stem (C).

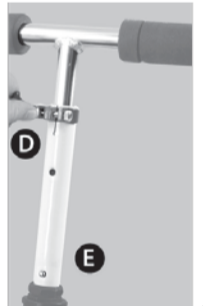

step 2

Insert the T-BAR fully, ensuring the pin (E) is protruding from the stem. Tighten the crank arm (D) clockwise to lock the bar in position.

safety first

- Warning. Protective equipment should be worn.
- Recommend to wear a helmet, knee pads, elbow pads, wrist pads and protective clothing.
- The toy shall be used with caution, since skill is required to avoid falls or collisions causing injury to the user and third parties.
- Do not take this scooter on the road or public highway. Not to be used in traffic. 20kg Max.

Maintenance

- Always make sure all screws and nuts are securely tightened before every use, the self lock fixture may lose their effectiveness.
