instructions:

Each player selects a hedgehog board. Place the basket on the table and put the wooden spines inside.

Choose which dice to play with. For a simpler but slower game, choose the 1-3 dice. For a faster game, choose the 1-6 dice.

The youngest player starts the game, throws the dice and takes as many spines as indicated on the dice. The player then inserts the spines into their hedgehog board.

The next player takes their turn. The winner is the first player to fill their hedgehog with all their spines.
