instructions:

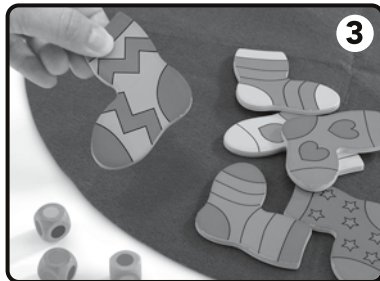

Game 1

Place all the socks face up on the mat.

The players take turns to throw the dice. The youngest player goes first.

Throw all three dice at the same time and then all players race to find the socks with the right colour combination.

The player with the most socks at the end of the game wins.

Game 2

The socks are distributed equally among all players. The youngest player goes first. All 3 dice are thrown and whoever has a sock in front of them with the same colour combination can place it in the centre of the mat. The first player to get rid of all his or her socks is the winner.
