instructions:

Game 1

Before the game begins, turn these 8 wooden tiles upside down on the table.

Place the 3 different wooden sets into 3 separate bags. The youngest player starts first, dips their hand into a bag and pulls out a shape.

Depending on which shape was picked, you then need to dip your hand into the other bags to find the matching shapes. If you picked the incorrect shape, then you miss a turn. Now you can test your memory by remembering and flipping over the wooden tiles. If you picked the incorrect tile, you then miss a turn.

Lastly, the player with the most shapes at the end of the game wins.

Game 2

The wooden tiles with the coloured shapes and coloured backgrounds are shuffled and placed face down on the table. The remaining components of the game are not required. The players can then take turns flipping over one pair of tiles each. If the shapes match, the player can keep the pair. However, if the 2 shapes do not match, the tiles are turned back over and the next player can take his or her turn. The player with the most pairs at the end of the game wins.
